

BECOME AN ASSOCIATE

Centres that are interested in becoming an associate of the company must meet certain scientific and general criteria:

- **Scientific Mission** - Centres should have a *specialised competence* in fields of cultural research.
- **Independence** - Your organisation should have the capacity for *independent decision-making* power over your scientific programme and research.
- **Regional Reach** - Potential associates need: *linguistic capacities, experience in collaborating* with colleagues along with an *understanding* of different cultural contexts within your respective geographic or language region.
- **Policy Relevance** - Your work and activities should have a connection to the policy-making process.
- **Experience in Europe** - We are looking for new Centres which have experience in designing or participating in European projects and comparative research.
- **Financial Stability** - In addition to these key attributes, potential Centres need to have the ability to contribute to the founding capital of the Institute.
